

# Vision to Reality Experience

Tareq Amin

Rakuten Mobile – Chief Technology Officer

**Rakuten** Mobile

# PHASE 1

## Creating the Vision together with Giants

How can we convince Global Giants for a shared vision?

# Rakuten Mobile Simplified Architecture

## Four Success Factors

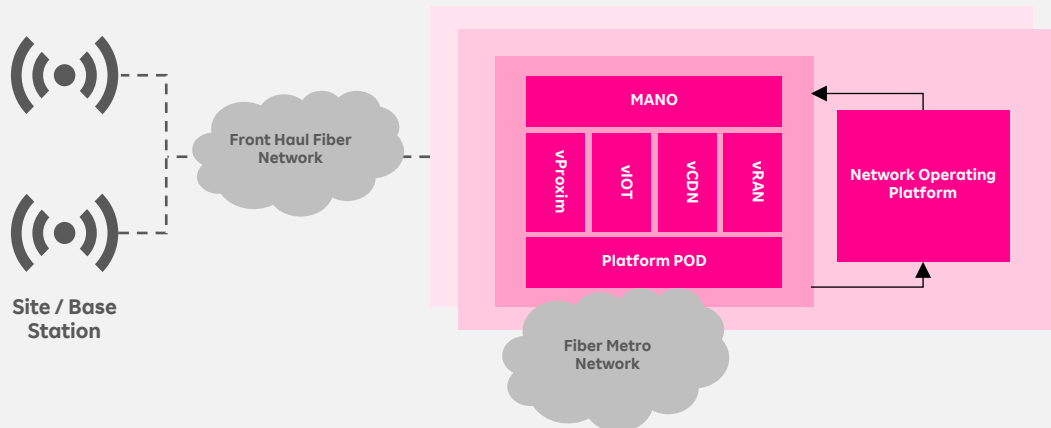

Virtualized,  
decoupled RAN  
architecture

Standardized,  
open hardware  
and software  
frameworks

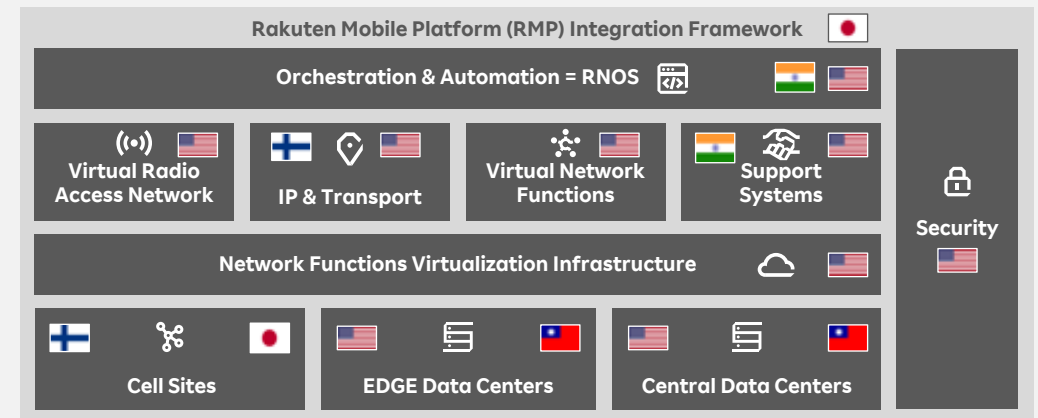

Optimal mix  
of edge and  
centralized  
data center  
resources

Pervasive  
automation  
and zero  
operations  
control

## Edge Data Centers

## Rakuten Mobile Simplified Architecture

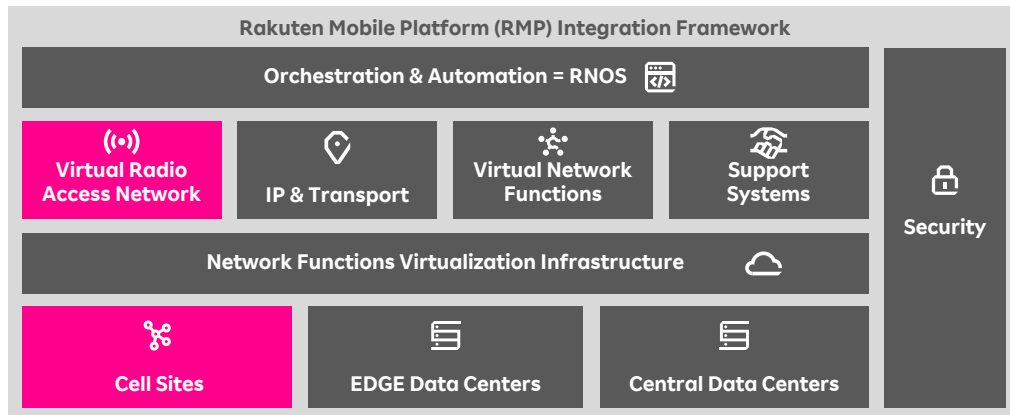

AUG 18

2019

2020

# Architecture

- World's First OpenRAN Deployment
- 40% Cheaper CapEx and 30% Lower OpEx
- Nokia opens remote radio head interfaces to Altiostar

Integrated RRH + Antenna

Rakuten Simplified Site Deployment

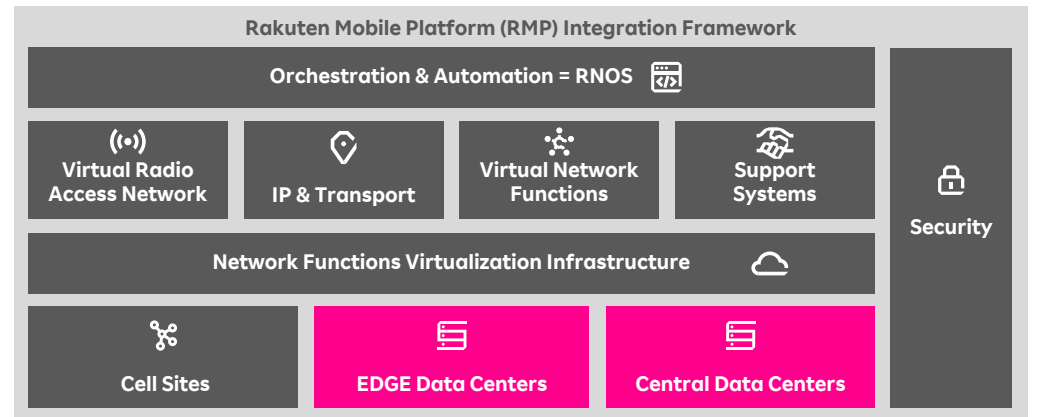

16 Mobile base stations per server

Memory: 16GB x 6  
1 SSD

# Cloud Native & Security

- World's First COTS Telco Deployment
- Standardized hardware from Quanta with minimal SKU
- Leading edge cloud architecture from Cisco

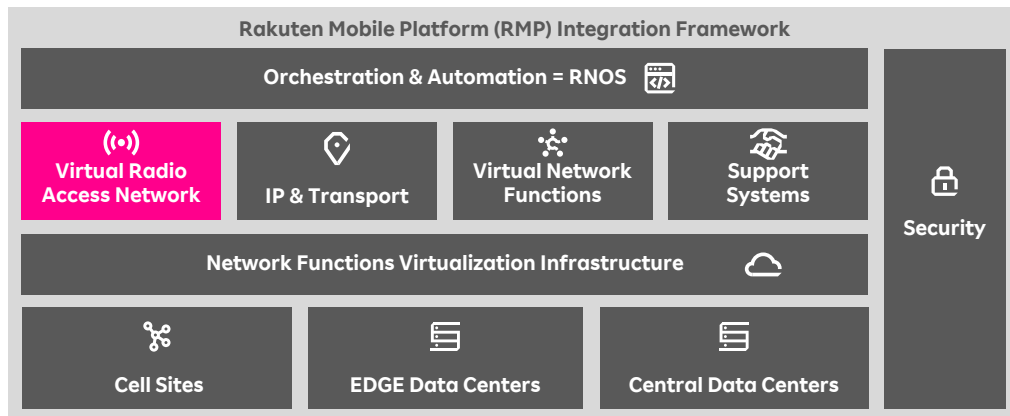

2018

FEB 19

2020

# Altiostar

- Most advanced OpenRan Vendor
- Rakuten investment in Altiostar
- First Call on Network – Feb 2019

4G 1ST GEN  
ZERO FOOTPRINT

4G 2ND GEN  
INTEGRATED

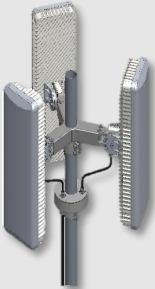

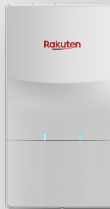

5G 28GHZ  
COST EFFECTIVE

5G 3.7GHZ  
JAPAN QUALITY

# World's Largest HETNET ORAN deployment

  <b>Nokia</b>	  <b>KMW</b>	  <b>Airspan</b>	  <b>Airspan</b>	  <b>Airspan</b>	  <b>Sercomm</b>	  <b>Sercomm</b>	  <b>Airspan &amp; Qualcomm</b>	  <b>NEC</b>

# Rakuten Unified Managed WiFi Platform

## Mobile APP for Secure and Clean Internet for family

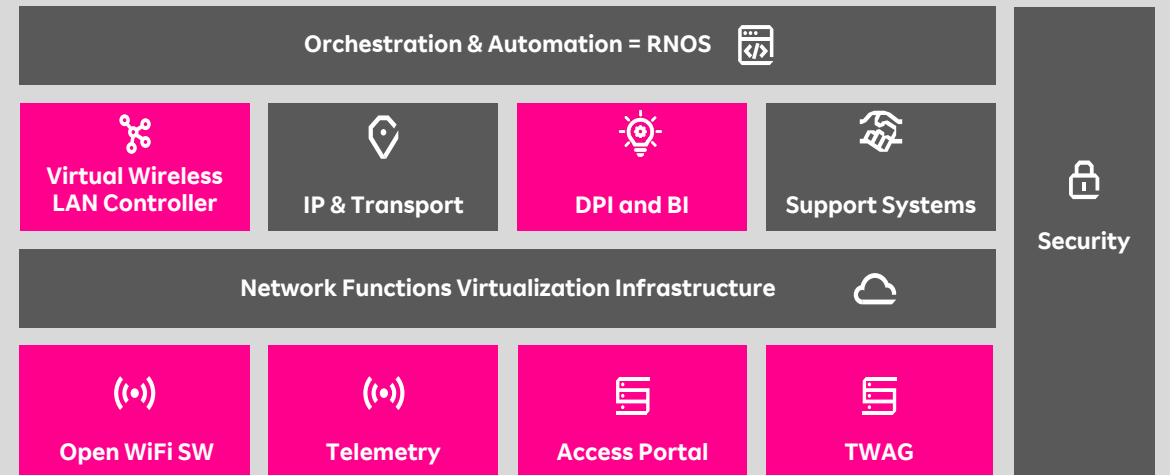

Rakuten Casa

5G CPE

Unified software stack and architecture for various usecase and hardware SKUs.

## Rakuten Mobile Platform (RMP) Integration Framework

## Experience

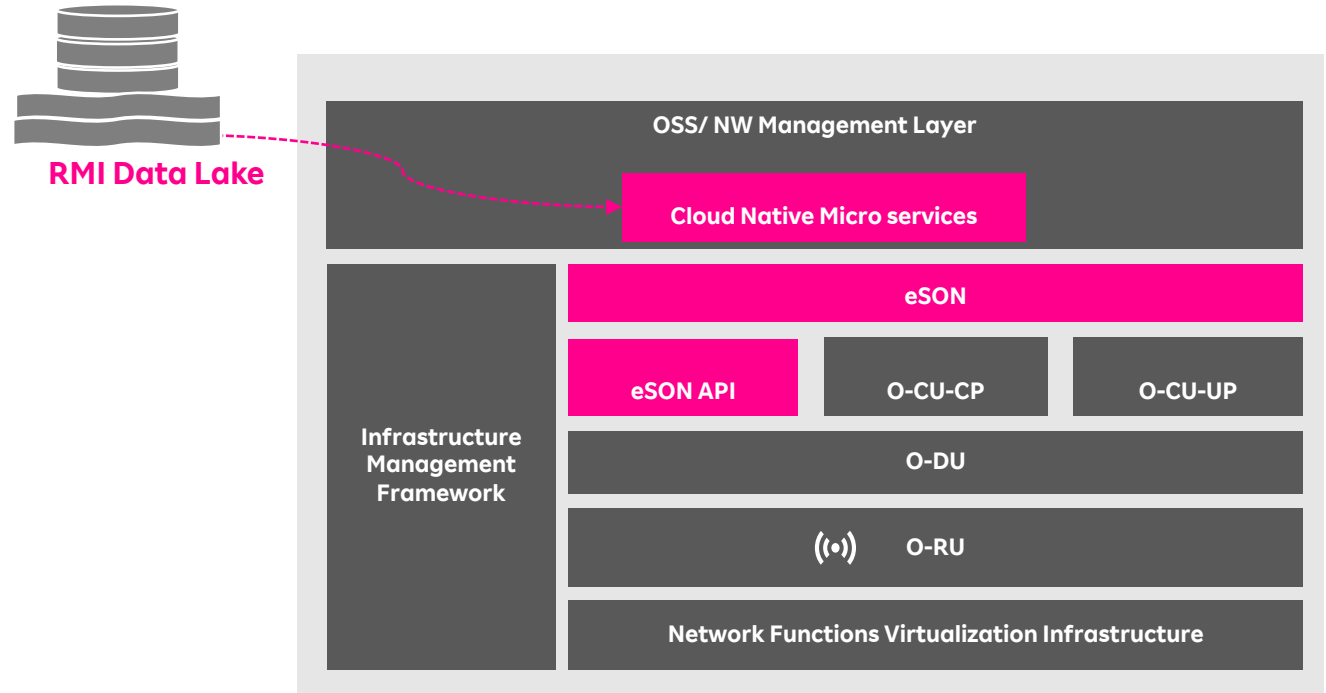

### Customer at the Center of Everything

- Rakuten own IP,
- End to End solution based on RCP platform.
- Managed WiFi for LTE offload and enterprise use case
- Can be deployed over trusted or un-trusted backhaul network

# RMI RAN Intelligence

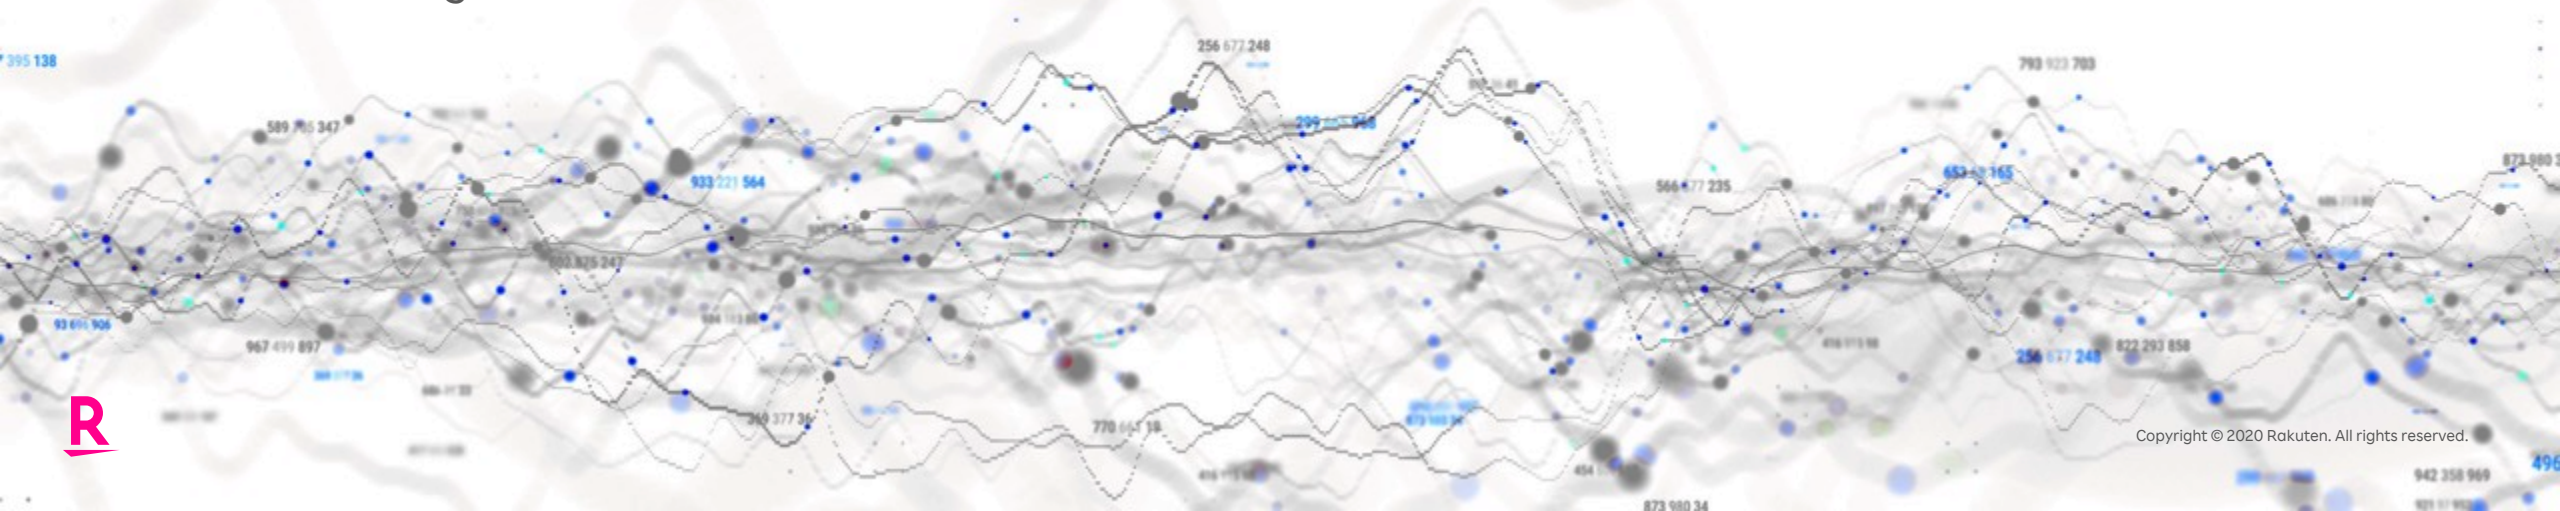

- eSON client is integrated in the vCU, provides real-time measurement information and performs Near RT (milliseconds) interference mitigation.
- Streaming cell traces from vCU providing rich datasets for non-real time optimization.
- eSON starts with Cell Trace logs, we developed many AI-Algorithms like,
  - RET
  - Interference Mitigation.
  - Optimizations on Mobility.
  - Impact analysis.
  - Outage Compensation
  - Proactive FEMTO cell prediction.
  - Anomaly Detection & Prediction...

# PHASE 2

## Scaling the Complexity for Completeness

How will we grow the solution in the relevant areas?

## Link - Rich Communication Services

## Rakuten Casa

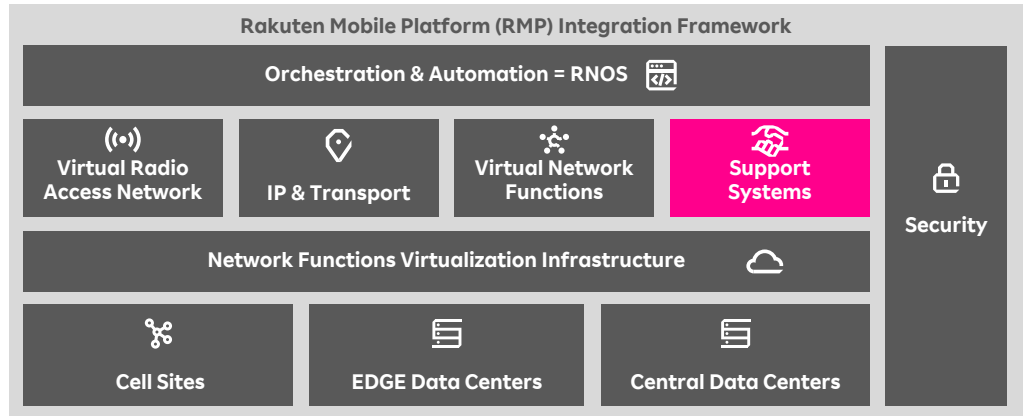

## Rakuten Mini Handset

# Experience

Customer at the Center of Everything

- Rakuten designs experiences not just products, such as Link
- Simplified onboarding experience with facial recognition
- New device portfolio with Femto, handsets, IoT devices

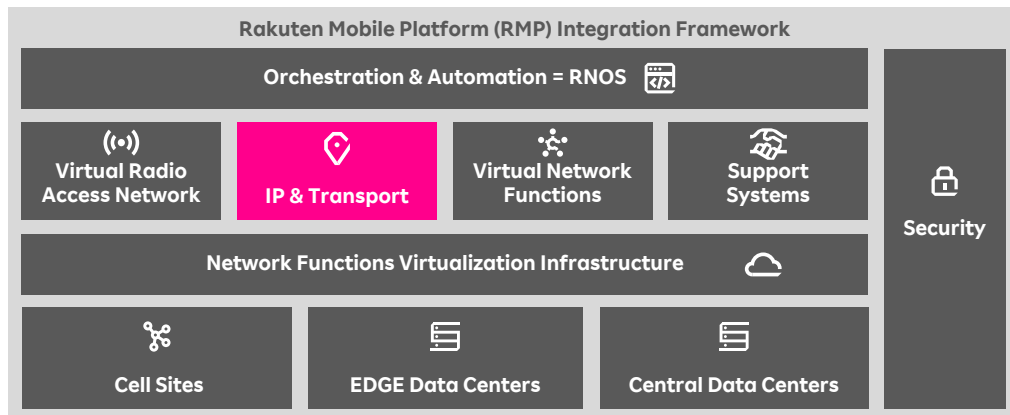

2018

JUN 19

2020

# Core & IP Transport

- Fully Virtualized VNF-based Core & IP Transport
- 182 VNF's onboarded with single control architecture
- 8TB connectivity for Tokyo

**Onboarding from 10 hours to 8 minutes**

### Traditional Network

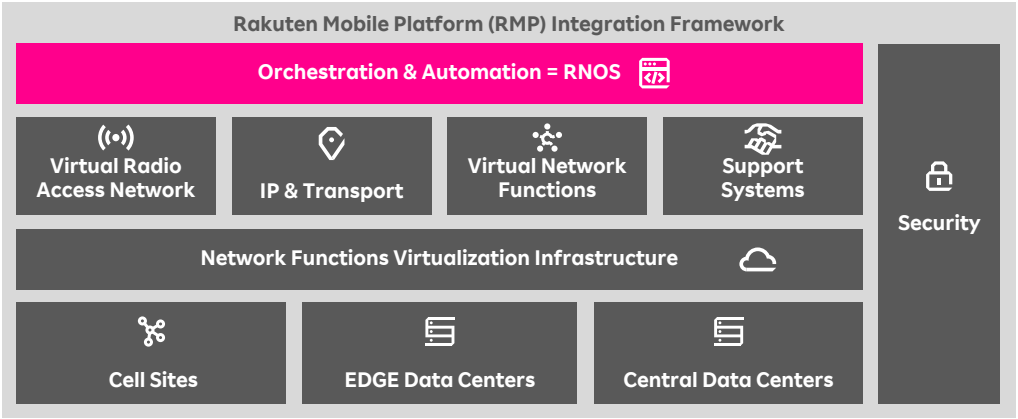

### Rakuten Network

# Automation

- Single platform for OSS monitoring customer experience & deployment
- Embedded automation framework with Analytics & AI
- Strong partnership with InnoEye for development

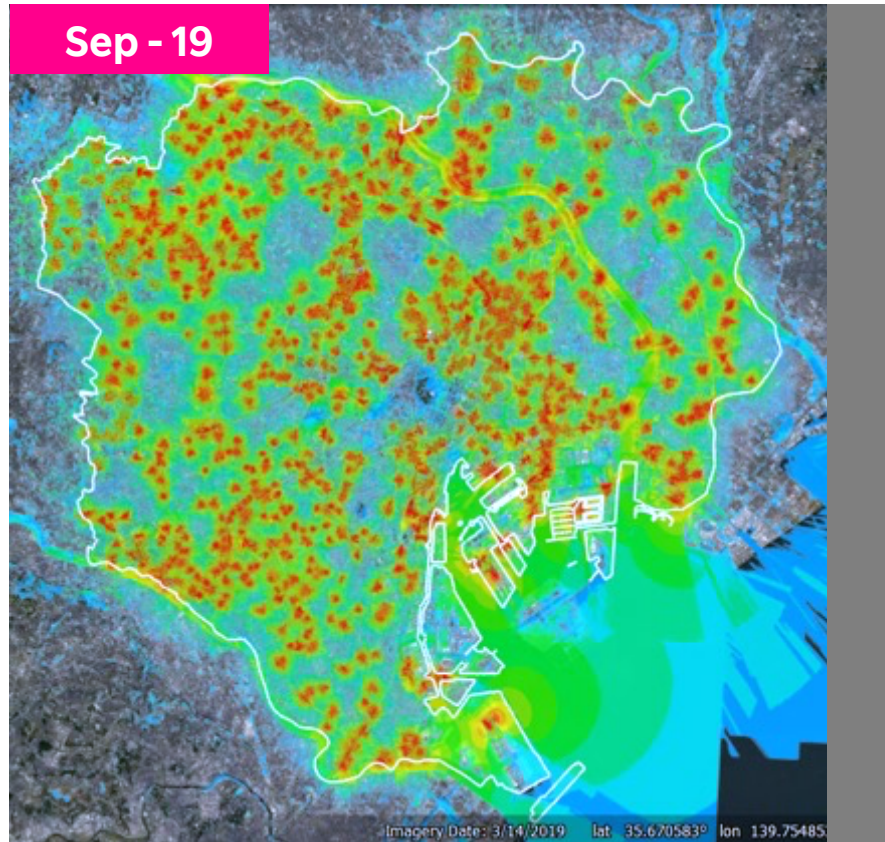

# REALITY CHECK

**What have we achieved so far?**

# How Real is the Current Architecture?

We are deploying the Rakuten Mobile Platform-based Architecture at Japan successfully...

There are already 5,900 Sites on air as of Aug, 2020

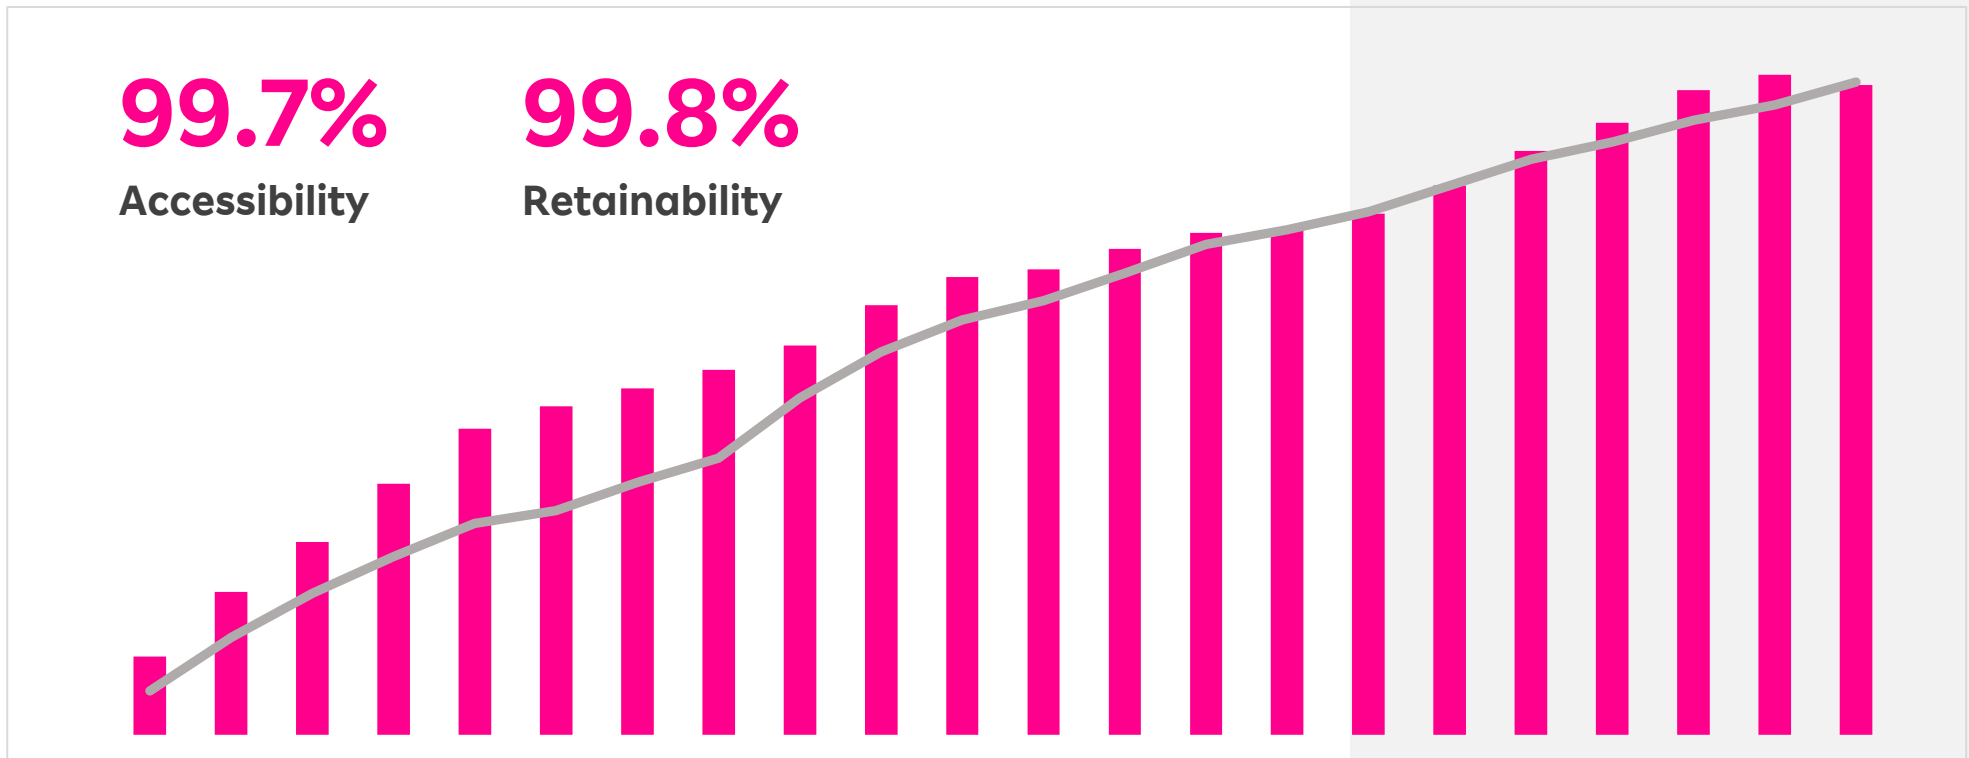

# How Real is the Current Architecture?

... and so far, the NW is performing well with the increasing traffic

**99.8%**  
Availability

**99.7%**  
Accessibility

**99.8%**  
Retainability

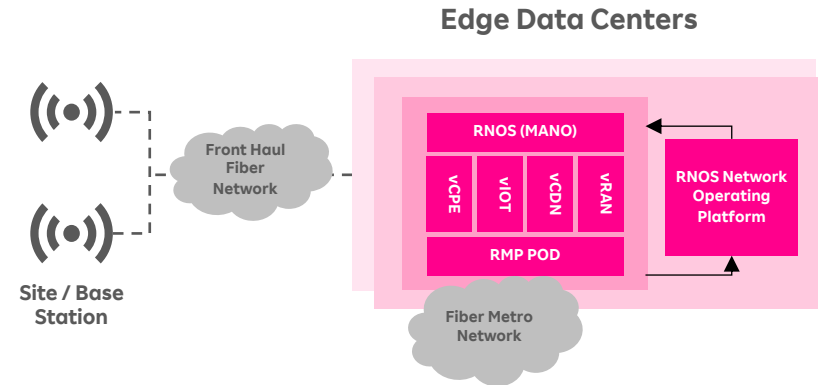

NB. Average Daily Active Subs & Data Volume is calculated weekly starting from Apr 8, 2020. Selected NW KPIs are average during the week of Aug 31, 2020.

# vRAN Innovation: The Key Enabler

To achieve such a performance, Altiostar delivered several revolutionary innovations

## Radio Innovations

- Fully virtualized eNB - virtualizing the RAN on COTS HW
- Containerized vRAN micro-services based on Kubernetes Platform
- 48-sectors of Baseband processing on single 2U4N server
- End-to-end orchestration and automation of eNB as a VNF

## Infrastructure Innovations

- Telemetry-based RCA and auto-diagnose for issues
- Zero-touch infrastructure automation ready for deploying real-time and extremely latency sensitive applications like vDU
- Future-proof Hardware and Software solution – Upfront architecture & design that can support 5G
- Facilitating Open interfaces and making Disaggregation of Hardware and Software a reality

# PHASE 3

## Committing for Global Future

Can we change the Telco Industry for good?

# Rakuten Communications Platform (RCP) is the next generation Operator Enabling Platform

RCP is the first multi-tenant Global Telco platform enabling CSPs with XaaS & Subscription model.

- Built for **telco** industry
- Optimized for **real-time**
- Application **Agnostic**
- Designed as & for **cloud native**
- **Open DNA**
- Global Interest and ongoing conversations with **50+ CSPs**

# Designed and built upfront as Open platform to enable co-innovation

Leveraging **open-source technology** across the board as a critical enabler to drive innovation and openness:

- ✓ One API decoupling layer to expose all network services to the ecosystem / marketplace to enable B2B.
- ✓ Designed upfront for Slicing + xNF placement to enable multi-tenant Edge and Central computing.

yugabyteDB

Actively driving and **co-innovating on key industry** cloud native open source initiatives such as:

- ✓ Open-source based “infra & platform-as-a-code” application templates on top of K8s (ecosystem leverage).

TELECOM INFRA PROJECT

CLOUD NATIVE COMPUTING FOUNDATION

A GLOBAL INITIATIVE

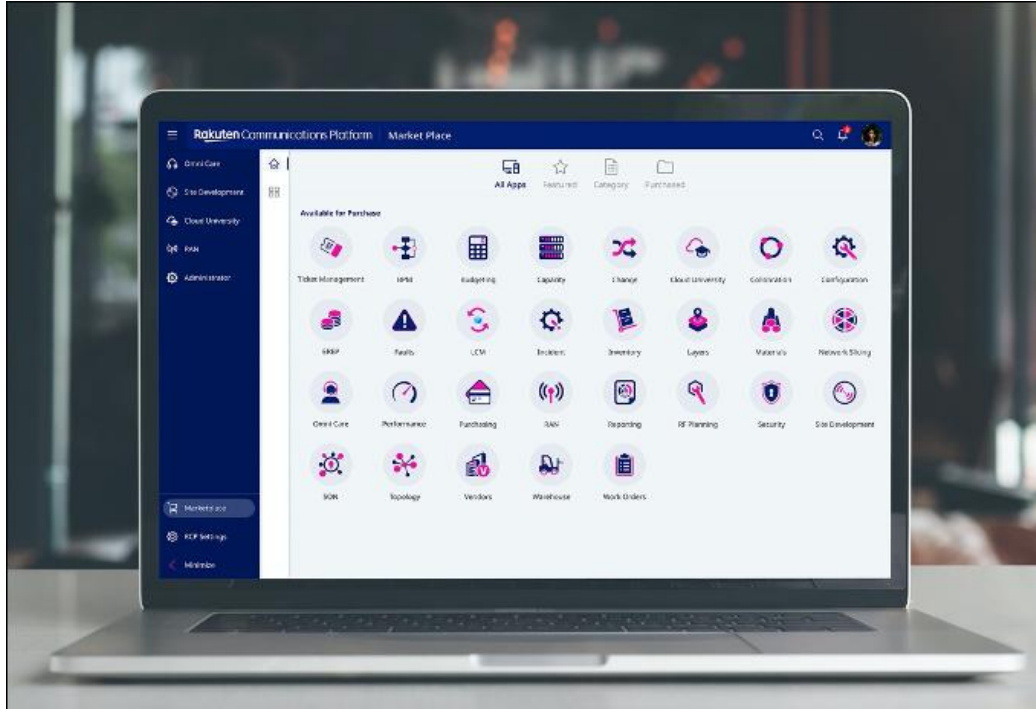

Creating a **global network of co-innovation labs** with RCP customers:

- ✓ HW Abstraction for all workloads leveraging K8s, Intel Containers Bare-metal Architecture (both OS) and Robin.io

# 5G Live with RCP for Rakuten Mobile

- **10+** Applications Live for Rakuten Mobile
  - **vRAN 5G**, IOT, **5G Open Core**, Omnicare, Leap
  - 50+ Inhouse Developed OSS & Telco Functions
- **ONE:** Orchestrator, Telemetry & Cloud
- RCP Edge for **MEC & Immersive Media Services**
- Common **PaaS & Data Plane**
- Elastic & Integrated **Data Lake & AI Studio**

**Thank you.**

**Rakuten** Mobile
